It's really not a decision for KBM to make, they are unsecured creditors, they want Steven and I to find a deal to put into NSAV, so if you want to paper an LOI under the framework I proposed let's do it.

Vik,

Bruce has arranged for me to speak to KBM at 3:30pm EST, which is 9:30pm my time. I don't mind putting in the time, but I need to know where we stand? I'm part of a big group with a long track record of success. We are not KBM for sure.

In addition, we will be spending hard cash from day one.

Thanks.

James
